PREVENT - A Norfolk update

Wednesday 7 August 2024 1-2pm

Via Teams

A webinar presented by

Russ Cole

Norfolk's Prevent Radicalisation Co-ordinator

Prevent has been redefined, going back to its origins with a focus for practitioners to gain greater understanding around ideologies that present the most risk to communities.

Come along to hear about recent changes, a summary of the current risk in the county and key areas of ideology of concern.

Refresh your knowledge of the process, get to know the new referral form and where to get additional support.

There will also be a short case study, and of course a chance to ask any questions.

You can register [here](#) but please **save the date** in your calendar and a Teams link to the event will be sent to you separately
